free riding.

Welcome to the best freeriding area in Styria. Please note the following important safety pointers:

- Everyday, check the avalanche report including snow and weather conditions at the valley station of the 6-seater chair lift or at www.lawine.at.
- Ride with appropriate equipment: avalanche transponder, avalanche airbag pack with shovel, probe, first-aid kit, and telephone.
- Never go freeriding alone and make sure you are well informed about the route you are planning. If something actually happens, immediately call mountain rescue – simply dial alpine emergency No. 140.
- The Tauplitz offers countless clearly visible and hidden lines varying in length and direction. Have fun and watch out for yourself.

the tauplitz. your heart will open.

Sun over sun and a 360-degree panoramic view. Snow-secure slopes spread over several ski mountains, almost all above the tree line. Lively, but never crowded. Numerous freeride lines at all lengths and points of the compass. A protected children's area for families. Sounds like the profile of your dream ski resort? It is!

Tauplitz is the largest single skiing area in Styria: on 43 wonderful kilometers of pistes, everyone will find the favorite slope, for carving, swinging or powdering. The 8-seater gondola and other modern lifts take you comfortably to the top - and at the latest at the top your heart will start beating. Convince yourself!

ski depot in tauplitz.

Instead of lugging your equipment, you can store it in the lockable locker at the valley station in the evening and, thanks to the integrated locker heating, get into your dry shoes in the morning. Warm toes, how pleasant!
